

## **BUS ROUTE INFORMATION 2017 - 2018**

**All information for locating or requesting a bus stop for your student is online at [www.hcde.org](http://www.hcde.org).**

Under Quick Links on the left of the page, click on “Transportation”. In the middle of the next page click on “Bus Stop Locator”.

This will enable you to enter your address and be given the closest bus stop location, bus number, and pick-up/drop-off times (Stop times are approximate and students should arrive at the stop at least 10 minutes early). You also have the option of selecting “Bus Stop Request” from that same screen.

Requesting a bus stop will not guarantee a stop will be created, but it will be considered. **Magnet Schools have pick-up and drop-off points only. A new magnet stop will only be considered at a HCDE school or community center.**

Because call volume is high through August, our transportation department has asked that **all inquiries be made through this website**. If you cannot find the answer to your question online, you can call the Transportation Department. However, during the first month of school you may experience a long wait time. During the first 2 weeks of school, you may call the **Hotline at 423-209-5555**. Thereafter, please make phone inquiries to **Transportation: 423-209-5680**.
